**Unlimited Contracting Advantages through the SBA Sole Source Process Cannot Be Protested – No Contract Value Thresholds**

## About Aleut

Aleut Aerospace Engineering, LLC (AAE) is certified with the U.S. Small Business Administration as an 8(a) Business Development Program participant, which provides proven capabilities for professional development and training, as well as engineering and technical support to include research and development, testing and evaluation (RDT&E) in multiple technical areas, repair, maintenance, and calibration of select electronics equipment, and related services that provide vital engineering support functions to clients at lower cost burdens than large business enterprises.

As an 8(a), AAE is available for nonprotestable, direct awards up to \$100M without justification, with the bonding capacity to support. As issued in the Federal Register, June 5, 2020, 48 CFR Part 206.303 1(a) now states "In accordance with section 823 of the National Defense Authorization Act for Fiscal Year 2020 (Pub. L. 116-92), no justification and approval is required for a sole-source contract under the 8(a) authority (15 U.S.C. 637(a)) for an amount not exceeding \$100 million."

## Aleut Federal & TAC

Our parent company, Aleut Federal, LLC, is a holding company for Federal subsidiaries of The Aleut Corporation (TAC). TAC was one of the twelve Alaska Native corporations established under the Alaska Native Claims Act (ANCSA), passed by Congress in 1971. Aleut Federal offers a portfolio of subsidiaries certified by the Small Business Administration as 8(a), small disadvantaged, and small business. Aleut Federal is diversified into four main service groups: Technology, Environmental, Infrastructure, and Construction.

## Capabilities

### STRATEGIC SERVICES

Aleut's strategic consulting services team provides our customers with the expertise to help streamline operations and improve efficiency. Our approach not only focuses on governance and process to drive measurable improvements but also innovation to drive enhancement to long-term approach and protocols.

- Human-Centered Design
- Program Management
- Financial Management
- Supply Chain Management
- Education and Training
- SETA
- Cybersecurity

### DIGITAL SERVICES

Our teams work to improve Government services through technology and design. We deploy designers, engineers, product owners, and strategic resources to build multi-disciplinary teams for the modernization of our client's missions.

- DevSecOps
- Agile Transformation
- Application Modernization
- Cloud Services
- Platform Services
- Data Management
- ERP

### TECHNOLOGY OPERATIONS

Our technology professionals lead the industry with innovative solutions for Enterprise-level IT LAN/WAN, Applications, and Communications environments in support of mission-critical objectives.

- Application Operations
- Cloud & Infrastructure Operations
- Cyber Operations
- Systems Engineering and Integration
- Space Operations
